

# DAT/EM Photogrammetric Software Suite

## CONTOUR CREATOR™

### Automatic Digital Surface Modeling and Contour Creation

Contour Creator generates and stores permanent contours into .DXF or CAD or GIS drawings. Once editing the terrain model is complete, run Contour Creator to check for blunders and crossed contours, smooth the resulting lines, symbolize, and place them on their appropriate database category.

#### Features

- Accepts input from many industry standard point file formats and accepts multiple input formats at one time.
- Allows user to select specific layers or levels from active AutoCAD®, MicroStation®, or ArcGIS®.
- Allows selection of layers or levels from the reference files in AutoCAD and MicroStation.
- Essential tools such as automatic depression contour identification, TIN- or grid-based calculations and contour exclusion removal.
